# LEADING ISSUES SHOW INCREASE

Liquidation on Wall Street at Minimum and Leading Issues Are Steady.

## DISPLAY OF OPTIMISM

New Year Welcomed by Financial World-Income Tax Troubles. Seaboard Report.

By W. STEALEY. Liquidation on the New York Stock Ex-change yesterday was at a minimum and buyers were compelled to bid up prices, which caused strength in the leading is-

ican Sugar, which opened at 1091-2, American Sugar, which opened at 1031-2.

closed with a gain of 3-4 of a point.

Reading, which went to 1893-8, closed at 1891-2, a quarter of a point below the opening price. Canadian Pacific closed at 2863-4, a fractional gain.

Dealings were narrow. Steel common days and the price of the price of the property of the price of

rose a half point on small transactions. Union Pacific was steady, and Amalgarecovered all its early losses in the final dealings.

the final dealings.

While opening prices were firm, uncertainty and irregularity develope about noon, when rumor implicated several dry goods houses. Fortunately stocks were not offered, and prices of stocks were not offered, and prices of leading issues retained their firm tone Coal stocks were strong. Erie rose to 28, and Lehigh Valley to 1491-2. Ameri-can Telephone and Telegraph was par-ticularly weak, selling below 119 on liqui-dation forced by rumors that the com-pany anticipated a new issue of bonds.

#### Sugar Shows Activity.

Unusual activity was noted in America Sugar, carrying the price to 1101-4 on th story that the company would arrang satisfactory solution of pending suits. Trading grew dull at the noon hour approached. Canadian Pacific developed strength, advancing from 20 1-2 to 306 3-4 Foreign houses were buyers. Cables from London indicated that the local market paid more attention to "horse play" tha prices. Efforts to cover stocks here at the low prices of the day failed. Fortunately for our market, Londor brokers are short of American issues

Local developments suggested a further selling of stocks that were not justified by the news of the day. Amalganisted was strong, Utah firm

and Tennessee Copper showed a sub-stantial advance on the day. Bonds were strong. The investment demand actici-pating an improvement with the new

Some uncertainty was occasioned b the local weakness in dry goods circles This, however, was not of wide impor-and general sentiment favored the closing of weak commercial institutions.

Reading earnings reflected conditions that were known to have ruled for months past. Surplus for November decreased \$44,000.

Money over the year end ruled easy.

Renewals were made at 6 per cept an time contracts were engaged at 43-4 pe

### Local Stock Market.

The last day of 1913 on the Washington Stock Exchange, at least, was not the worst in the year's record. Four thousand dollars of Potomac Elec-

tric 5s were sold at 105; three \$1.69 Po-tomac Consolidated 5s went at 98 1-2; one \$1.000 Capital Traction 5 and one \$500 5, of the same company, were sold at 107 3-4 In the stock list, ten shares of Com mercial National Bank brought 185 and four shares of Federal National Bank 134 I-2. Five shares of Mergenthaler were sold at 312 1-8 and five shares at 212. Six ten shares of Lanston brought \$21-2. One share of Washington Gas was sold for \$1. A bid of 1111-2 was made for Capital Traction, 115 asked,

#### Optimism for 1914. hopeful feeling toward the New

Year pervades Washington financial circles. There is a feeling akin to relief that 14 has displaced 12. Within two months the Interstate Com and it is reasonably certain that legisla-tion, which he will recommend, will be adopted. The President's hold on the

ncy toward radicalism.

The currency act is regarded, generally, as far superior to existing law and finan ciers, throughout the country, believe it will remedy to a considerable extent present conditions. The personnel of the Federal reserve board is the most imporiant direct feature, but above this the success of the system depends upon the integrity of the business world—the certainty that the borrower will pay.

Senate and House will frustrate any tend-

The ethical standards of business are higher than ever before and there is no reason to suppose they will be lowered.

### Income Tax Troubles.

The Secretary of the Treasury early n the year probably will be appealed o by financial institutions throughout the country to lessen the burden imposed upon them by the collection of the in-

ome tax at the source.
As matters now stand banks have been compelled to increase their clerical force to collect the government's money, and it is contended that this is an injustice,

it is contended that this is an injustice, and, at the least, the government should stand the expense.

Up to date twenty-six blank forms have been issued by the Treasury Department to facilitate the collection of the tax. A number of additional forms will be issued within the next few days. Institutions will be put to the severest strain this week and next, when it is estimated \$25,000,000 is to be distributed by industrial and railroad corporations in interest and dividends. About \$150,000.000 of that amount is interest on bonds.

## Local Clearing-house.

Washington bank clearings for the year 1913 aggregated \$400,906,075.58, as against 1991,776,791.90, a gain of \$11,128,283.68. Bank Increases Surplus.

The Commercial National Bank, in ad-tion to the regular querterly dividend f \$55,000, has set aside \$55,000 to surplus secount. The surplus now amounts to \$5,000, and the capital to \$750,000. Senboard Makes Report,

I. C. an Excep	tion.	

Illinois Central is one of the few rail-road companies that is showing monthly increases in gross and net revenues, its November statement indicating a gain in the former item of more than \$290,000 and about \$105,000 in the latter, as com-pared with November a year ago. For the five months ended November 20 last there was a gain in gross of more than \$1,600,000 and about \$27,000 in net. Western Railway Reports.

Of twenty important railroads operating west of the Mississippi, nine reported decreases in gross revenues for the four months of the current year to October II. Thirteen reported decreases in net, ranging from a few thousands for some, to nearly \$2,000,000 for the St. Paul. Only seven. seven of the roads decreased main-tenance of way and structure expendi-tures, and only five decreased these ex-penditures on equipment.

#### Boston and Maine Plans.

After the meeting of the Boston and Maine directors yesterday announcement was made that January payments will be met. Charges, interest, and rentals aggregating nearly H,500,600, are due to-day as fixed charges. Official statement was made that they will be paid. January 1 checks are ready to be handed out, and \$500,000 of maturing Concord and Claremont bonds will be retired today.

# Within two months the luterstate Commerce Commission will have decided the pending railroad cases, and the attitude of the administration toward the Sherman anti-trust law definitely will be disclosed. Legislation on the latter subject is not expected to be of the drastic nature which reports of several months ago indicated. Congress undoubtedly is dominated completely by the President, and it is recognished corrient that legislation. ON LOCAL EXCHANGE

# **WALL STREET GOSSIP**

All markets will be closed today.

The next ginners' report will be published January 2, and be up on data carrying operations up to the close of usiness vesterday.

Delaware and Hudson has declared out of the cornings of L13 the regular annual dividend of 9 per cent, payable in four installments during 1914 of 2 1-4 per cent

ennessee Copper Company's coppe output for December will be over 1,700,-000 pounds, making the month one of the largest in the company's history. The production for 1913 will be somewhat larger than last year, when the total was 13,252,000 pounds. The high record was in 1908, when 14,444,000 pounds were pro-duced.

The sulphuric acid output for Decembe The sulphuric acid output for December will show between 19,000 and 20,000 tons, or at the rate of close to 250,000 tons per annum. The acid plant has a capacity of 200,000 tons a year, and plans are being formulated to enlarge the copper production so as to permit of full production by the acid plant. The company's officers figure that in 1914 the profits from acid alone should about pay the present \$3 dividend.

Adams Express Company is the last of the four big companies to make formal recognition to its stockholders of the

the four big companies to make formal recognition to its stockholders of the conditions confronting the companies in the field of express transportation and to intimate that a reduction in the present dividend rate of 12 per cent per annum may have to be made.

Wells, Fargo & Co. Express directors, at their semi-annual dividend meeting early last week, declared the usual 5 per cent dividend, but informed the stockholders that "a continuance of that dividend rate may not be warranted." American Express Company recently reduced the semi-annual dividend of 3 per cent from transportation proceeds to 2 per cent, and if the company reduces similarly the 3 per cent semi-annual dividend out of other income at the next meeting in March that stock will be on an 8 per cent dividend basis as compared with the 12 per cent it has paid regularly since 1906. United States Express, which had been paying dividends at the rate of 6 per cent annually, has paid no dividends since the fiscal year 1912.

The American Ice Company has issued its report for the year ended October 31, 1913. Net profits after deducting \$530,-281 for maintenance and improvements are reported as \$1,530,230, equal to 11.12 per cent on the \$14,200,200 preferred stock, as compared with 2.47 per cent earned on the same stock in 1912.

The report represents the best year since 1906, and in many ways is more favorable than that of 1908, because the results, of the past year were accom-

Lewis Johnson & Co.—The end of the year is at hand with the market presenting ragged changes from a year ago. Many prominent stocks had a very early January rise a year ago, making the togs within the first few days of the rew year. We see no reason to expect anything very different this coming year sa far as the first important movement in the marke; is concerned. There has been a weeding out of shorts and a careful effort to distribute long stock as we see it, which will play into the hands of bears very soon. The outside public is not buyvery soon. The outside public is not buy-ing heavily and market movements are heavily and market movements ar

BUN ON SIEGEL BANK.

Depositors Seared by Receivership for Department Stores.

New York, Dec. 31.—Despite assurances that the bank was in no way connected with the dry goods houses which were placed in the hands of receivers yesterday, there was a run this morning on the Greenhut-Siegel-Cooper Bank.

It is reported that \$55,000 to \$100,000 was drawn out by timid depositors, and at closing time many were still in line.

### The Safest Investments

Are those that do not fluctuate during dis-turbed conditions of the money or stock mar-kets. First deed or trust notes (first mort-gagess), seel secured on real exacts in the Da-trict of Columbia, constitute "gilt-edge" in-restments. They do not depend upon the financial responsibility of individuals or cor-porations for their stability, and are exempt from taxation as personal property. We can supply such tovestments in amounts from \$500 upward. Send for booklet, "Concerning Loans and Investments."

Swartzell, Rheem & Hensey Co., 727 15th Street Northwest,

Harvey S. Chase, C.P.A. Arthur T. Chase, C.P.A. Charles H. Tuttle, C.P.A. Walter C. Wrye, C.P.A.
